ABOUT

Second-year B.Tech student in Electronics & Instrumentation Engineering at SGSITS with a strong interest in software engineering, backend development and problem solving. Proficient in Java, Python, SQL, HTML, CSS and JavaScript. Currently strengthening Data Structures & Algorithms, DBMS and FastAPI through projects, hackathons and continuous practice while seeking software development internships.

EDUCATION

Shri Govindram Seksaria Institute of Technology and Science (SGSITS), Indore

B.Tech, Electronics & Instrumentation Engineering (2025-2029)

Current Year: Second Year | CGPA: 8.35/10

TECHNICAL SKILLS

Programming	Java, Python, SQL, JavaScript, HTML, CSS
Libraries	NumPy, Pandas
Core	Object-Oriented Programming (OOP), DBMS
Tools	Git, GitHub, VS Code
Learning	DSA (Java), FastAPI, Backend Development

PROJECTS

- AgentGuard: Developed a cybersecurity awareness web application with a responsive interface.
- Flower E-Commerce Website: Built a responsive e-commerce frontend using HTML, CSS and JavaScript.
- PRAHAAR-AI: Winner of PRARUPAM 2025; contributed to research, solution design and presentation for an AI-powered defence command support concept.
- Routiqo: Contributed to ideation, UI planning and AI-assisted prototyping during a hackathon.

ACHIEVEMENTS

- Winner – PRARUPAM 2025 (PRAHAAR-AI)
- Qualified for MANIT Hackathon Finals
- Active participant in hackathons and coding competitions
